

## YANKEE 'MIRACLES' PLACED ON SHOW IN BIG CHEMISTS' FAIR

Hundreds of Marvels Prove the  
American Brain Is Still  
Active.

It traverses the three floors of the Grand Central Palace in which the Third National Exposition of Chemistry is being held this week. It is a glimpse of the significance of a world at war. It is something more. It is to realize in some measure the part that American ingenuity and American adaptability are playing in the fight which is being waged to make a world democracy possible.

Two thousand chemists and workers in the field of applied chemistry from all parts of the country are in the city to attend the exposition. As William B. Culbertson, a member of the United States Fourth Chemical Congress, said in the speech last night, the war has made new the industries that are represented—revolutionized their technology, technology and industry. And what the war has done for those engaged in the manufacture of materials essential to the successful conduct, this exposition is open to the eyes in the street a window which hitherto has been closed.

He knows, for instance, that coal is a product of supreme importance—he has known it since it was known that coal is the source of the energy that drives the world. He knows that the most important products are derived from coal. But now he sees the family tree of King Coal with every one of its branches and its leaves shown not merely by name but in proper perspective. He understands in a general way that improvements are being worked out for the telephone and he knows the men who are giving their time to the problem.

How is scientific and technical knowledge an instrument designed to produce new knowledge transmitted by language, the word of which are as definite as to be concrete; the diameter of a human hair, and for the welding of which a microscope has to be used.

## WEALTHY, HE WON'T SUPPORT DAUGHTER TO LET HUSBY FIGHT

Auctioneer Silo Upheld by  
Hughes Board in Case of  
Son-in-Law Wagner.

"When a young woman marries she automatically becomes a member of another family. Unless she has property, it is an income of her own, she must look to her husband for support. All obligations on that score from her blood relatives cease."

**Safe Milk**  
for  
Infants and Invalids  
**HORLICK'S**  
THE ORIGINAL  
MALTED MILK  
Bark milk, malted grain, 1/2 powder form.  
For infants, invigorating nursing children.  
Pure nutrition, upbuilding in whole body.  
Invigorates morning sickness of the aged.  
Most nutritious than tea, coffee, etc.  
Instantly prepared. Requires no cooking.  
Substitutes Cost YOU Some Price

## Is Grandmother "Always Cold"?

Gude's **Pepto-Mangan** is a good tonic and health builder for the aged, because it increases the quantity and improves the quality of the blood.

It makes thin, sluggish blood rugged by providing great quantities of new, rich, red blood cells. Rich, red blood coursing through the veins drives out poisons and carries warmth, health, and vigor to every part of the system.

## Gude's Pepto-Mangan "The Red Blood Builder"

If grandmother hugs the fire and her appetite is poor and she is no longer interested in things, give her **Pepto-Mangan**. If you are pale, run-down, and always feel over-worked take a course in **Pepto-Mangan** yourself. **Pepto-Mangan** does not interfere with digestion because it is predigested; its taste and color are agreeable, its benefits are soon apparent; it cannot injure the teeth.

**Friendly Warning:** The well-merited fame of Gude's **Pepto-Mangan** has prompted many imitations of the name, bottle, and product. For your own protection refuse all substitutes. You are entitled to the genuine; be sure it is Gude's.

**Pepto-Mangan is made only by**  
**M. J. BREITENBACH CO., New York**  
Manufacturing Chemists

They have news to tell, these chemists, whose time and talents are being given to the problems which confront America at war. For example, Mr. Culbertson brings word of what is being done with an appropriation of \$200,000 made by Congress for the production of atmospheric nitrogen. America was absolutely dependent on Chile for its supply of sodium nitrate, the raw material for the production of nitric acid, necessary in the manufacture of explosives. Now a plant is being erected for the oxidation of ammonia which will solve the problem.

## CAMMEYER

Stamped on a Shoe Means Standard of Merit  
34th St. New York

## "MARGOT"

Two long months from to-day women may find this original Cammeyer model copied and imitated by others, but until then it may be had only from the "Store of a Thousand Styles."

An entirely new last was created, and it is exclusive, as only an origination can be. We present this shoe as mute evidence that Cammeyer has the new styles first, and at prices only made possible by the buying power of the Largest Shoe Store in the World.

In all Paris Brown, Kid-skin. All Slate Gray Kidskin. Turn and Welt Soles. Covered 2-inch Louis XVI Heels.

\$11.00

Patent Leather Vamps, Dull Black Kid Tops Also in all Black Kidskin.

\$8.00

## OBITUARY NOTES.

Lord William Henry Edgcombe, Lord Lieutenant and Vice Admiral of Cornwall, is dead at Plymouth, England.

Henry Hesterberg, aged sixty, Democratic leader in the Kings District, is dead at No. 719 Flatbush Avenue, Brooklyn.

Joseph A. Sinn, Vice President of the National Surety Company, is dead in the Midway Sanitarium, Brooklyn, at the age of sixty-four.

The Rev. Charles J. Ryder, one time corresponding secretary of the American Missionary Society of the Congregational Church, is dead at Stamford, Conn.

Daniel Jarrett Sullivan, known to the stage as Daniel Jarrett, and for ten years a member of the Boston Theatre Stock Company, is dead at No. 433 Berry Street, Brooklyn.

**Suicide's Note Shows She Thought of Killing Children.**

That Mrs. Edna H. Mott, who committed suicide at her home, No. 18 Botanic Place, Flushing, with her Monday morning, contemplated killing her seven-year-old daughter, Marion, and her two-and-a-half-year-old son, Frederick, was revealed in one of the notes she left. The notes were opened in the Queens Coroner's Office yesterday.

"I wanted to kill my two children as well as myself," she wrote, "but I could not bring myself to commit murder as well as suicide. I dreaded it after thinking it over."

**Mass for Archbishop Kennedy.**  
A solemn pontifical month's mind mass of requiem for the late Most Rev. Thomas F. Kennedy, D. D., Titular Archbishop of Sebausia and rector of the American College, Rome, Italy, will be celebrated in St. Patrick's Cathedral tomorrow at 10:30 A. M. Cardinal Farley will preside. The Rt. Rev. John J. O'Connor, D. D., Bishop of Newark, will celebrate the mass.

# Making Corn Save Wheat

Use more corn and save Wheat!

Corn bread in various styles has been used by the white man from Pilgrim Father days, and by the Red Man for untold ages. Corn is America's greatest grain crop.

Of late years ingenious Americans have found that corn can be transformed from a common, into an uncommonly delightful food by cooking, rolling and toasting. And of all corn flakes the *most* delicious, the *most* palatable, and *most* richly flavored, are

# Post Toasties

—an all-the-year-round food—

All the goodness of white Indian corn!

A delicious, nourishing dish, usually eaten with cream, milk, or fruits and juices in season!

These bubbled flakes have a substance that gets them away from old style corn flakes—thin and wispy.

They are a substantial food—not a soggy confection.

Eat

# TOASTIES

and save Wheat!
